

Dear Hiring Manager,

I am thrilled to be able to apply for the open Cloud Architect, Full Stack Software Engineer and Cloud Technical Lead position that you currently have at your esteemed organization. I can bring an extreme focus on my work and incisive design thinking, analytical intelligence, and development innovation to the job. I am fascinated by how computer systems, development processes, and project releases plan need. I never tire of learning more about them. Motivated by this passionate interest, I believe that I can be a valuable addition to your team as I will not tire until I find the cleanest and most efficient solution to whatever problem is put before me.

I have extensive experience designing, implementing, and overseeing all aspects of software design, analysis, release management, team leading, innovation, client interaction, collaborating with cross platform team and management and principal architect to find and analyze system risk that might point to releases delay which may impact client's revenue, I also involve in application monitoring, post live deployment operational support and improving system performance and so on.

While working as a Cloud Technical Lead at IBM PVT LTD, it required to exercise my curiosity and creativity to the maximum to discover why it was that business revenue and client satisfaction should increase by the delivery and innovation by me and my team at IBM and to propose improvements to the design of those legacy API and apps where improvement is strictly required to attract more clients. I found challenging application development and analytical work like this, which required me to inventively collaborate with a broad range of different software architects and IT specialists, highly rewarding.

I am earnestly grateful to you for your time and consideration. I look forward to learning more about precisely what needs Innovation Technologies have that I might be able to fulfill for you as a Cloud Technical Lead and a trusted member of your team. As we move ahead through the hiring process, I will be excited to share and demonstrate my expertise to you and be of service.

Sincerely,

Thank you

Suman Dey

Senior Cloud Technical Lead
